

Prism Flow Products 2010 NFL Pool – Rules & Payout

POOL FORMAT

This is now a Confidence Pool Format which works on a point system. The more confidence you have in a team to win the higher the points you would allot to that game ex. there are 16 games played this week and once you pick the team you think is going to win in any game you then need to allocate a number from 1 to 16 so if it is a pick'em type of game you would probably give the confidence number a 1 or 2 and if it is a 14 point spread you may give it a confidence number of 16.

POOL SCHEDULE

This pool has changed this year and now includes the playoffs including the Super Bowl.

POINTSPREADS

This pool does not use point spreads.

WEEKLY STANDINGS

The person with the most points for the week is ranked first in the weekly standings.

SEASON STANDINGS

The person with the most points for the season is ranked first in the season standings.

AUTOPICKS

The pool wide autopicks has been set to a default of 'DOGS'. This simply means that if anyone fails to get their picks in they will be automatically given all dogs for the week. Please remember you have until 10:00AM Sunday to get your picks in unless there is a Thursday or Saturday game that week.

CONFIRMING PICKS

It is your responsibility to confirm that your own picks are accepted by the website. You can do this in a number of ways including the pick confirmation email and by returning to the pick sheet to see that your selections are bolded. The picks shown on the website after our deadline has passed are your FINAL picks.

TIEBREAKER

Weekly tiebreakers are decided by correctly picking the MNF game and then by the total points scored in the MNF game.

ENTRY FEE

\$50.00
